Inclusivity

"Goldie"

the service pup represents our heart of service to the disabled community and beyond.

Feedom's Story

Our passion for creating high-quality and fashionable mobility gear began with founder Julia Kim's experience working with disabled athletes at the 2018 Paralympics and her desire to provide a higher standard of quality to the quadriplegic community.

Since then, our Feedom team is dedicated to bringing **freedom** and dignity to people with disabilities. Because we believe that everyone deserves to look good and **feel** good.

Our symbol represents the value of self-confidence, style and safety, all in one awesome bag.
